CHARLES F. BOLDEN
GROUP

BOLDEN GROUP GOVERNMENT CAPABILITY STATEMENT
U.S. GOVERNMENT | CONSULTING AND ADVISING FOR THE BUSINESS OF SPACE
Bolden.group
hello@bolden.group
For Federal Agencies, Defense, Civil Space, and Prime Contractors

BRINGING THE VALUE OF SPACE HOME TO EARTH.

Bolden Group is a management consulting and advising firm providing access and opportunity in the business of space. For government clients, we deliver defined answers through task organized, advisor-led teams under fixed-price type agreements.

CORE COMPETENCIES

Studies and Assessments. Evidence-based answers to problems an institution cannot see clearly, built to go on the record.

Workforce and Culture. Workforce development, leadership culture, and organizational design across functional boundaries.

Decision Mapping and Program Design. Map who decides, who influences, and who can stop it. Then design the program around it.

WHY BOLDEN GROUP

Access. Relationships built over decades and held together by loyalty and shared values, at country level across four continents.

Expertise. Astronauts, agency leaders, generals, physicians, lawyers, investors, and founders, including Iconauts who have orbited the Earth.

Clear boundaries. We open doors and help you decide. We do not lobby or advocate before government officials.

HOW WE WORK

The Project. A fixed scope and defined deliverable: a study, assessment, or program design. One price, set before work starts.

The Sprint. Six weeks on one decision. We map who decides and put the right advisors against that map.

The Retainer. An Operating Partner on call as your situation changes, with advisors brought in when needed.

HOW WE CONTRACT

Fixed-price type agreements, priced before work starts.

8(a) set-aside and sole-source eligible under SBA rules.

SBIR Phase II awardee, eligible for related Phase III work.

Two legal entities. The award names the one doing the work.

Execution belongs to the institutions authorized to deliver it.

START HERE

Ninety minutes. No fee. Every engagement starts with a session with an Operating Partner. We test whether this is the real decision, map who decides, and send a one-page first read within five working days.
